

Agenda 1th partner meeting

Nordplus adult NPAD-2021/10090 project „Reaching greener future in local food&drink production and provider SME sector – innovative and best practice based adult training”

HARDANGERSMAK

The food and drink from Hardanger are central both in its tradition and identity. «Hardangersmak SA» is our company, which true cooperation between local producers serves both food experience and products, associated with good quality.

Hardangersmak is a marketing-, sales, and distribution company, which the producers themselves own. For you as a customer it will be easier to order and get the goods delivered.

You can order many products from different producers all throughout the region. Everything in one place, delivered at once, and in one invoice. We look forward to establishing a good customer relationship with you who run a hotel, café, catering, grocery store or speciality store in Hardanger or other places.
