

3rd NAT-TOUR-EXPO project partners meeting

Interreg

Co-funded by
the European Union

Central Baltic Programme

NAT-TOUR-EXPO

**Elin Priks,
05.10.2023.**

The website updates,
thank you GIRTS!

Baltic Nature Tourism website links

- Website Meta the picture for each main topic

The screenshot displays the Facebook profile of Baltic Nature Tourism. The page features a navigation bar with icons for home, video, marketplace, groups, and messages. The main content area includes a post from 6 minutes ago about foraging for mushrooms and berries, a photo gallery titled 'Fotod' with a grid of nature images, and a post about horse riding adventures in the Mõtsküla-Lootvina Nature Reserve. The page also shows a 'Reklaami veebilehte' (Advertisement website) and a 'Võimenda postitust' (Boost post) button.

Baltic Nature Tourism

6 min tagasi

Only 129 days till Christmas!
Do you know what the best-hidden secret for us is? In autumn our national sport is picking wild berries and mushrooms. So it is perfect timing to join us for foraging trips and later prepare it for winter. And serve it on your Christmas table.

Baltic Nature website updates

- Flags for EST/LV providers
- Arrows added to service pager

Some questions

Should we add:

- Nature guides as a topic
- Selfguided digital hikes, audio guides
- Under water theme- waterfalls
- Wildlife watching- add beaver
- Pilgrim and nature belief

- Some topics should be relocated Fungi under food and foraging
- Rural living and wild foraging should be relocated under food and foraging
- Serum masterclass under soul tours?

The screenshot displays a website page for nature tourism. The main heading is "Wildlife Watching", with a sub-heading "BIRD WATCHING". Below this, there are five tour cards: "Boat Ride and Cormorant Watching Experience", "Bird Watching in Slitere National Park", "Family adventure tour", "Early Spring Birding Tour", and "Autumn Bird Migration in West Estonia". A paragraph of text describes wildlife watching as a popular activity in the Baltic states, mentioning various species and the importance of following guidelines in protected areas. Below this, there is a section for "BOTANICAL TOURS" with three tour cards: "Boat Ride and Cormorant Watching Experience", "Rural Living and Wild Foraging Experience", and "Serum Masterclass in the Old Wooden Manor". At the bottom, a section for "MAMMALS WATCHING" is partially visible.

BIRD WATCHING
Specialized tours for specific bird species and bird-watching sites of national and international importance, particularly during migration periods.

Wildlife Watching
Wildlife watching is a popular activity in the Baltic states of Latvia and Estonia. The region is home to a wide variety of wildlife, including many species of plants, fungus, birds, mammals, and fish. Overall, the Baltic states of Latvia and Estonia offer many opportunities for wildlife watching, with a wide variety of species and habitats to explore. It's important to follow the rules and guidelines of the protected areas and respect the animals and their habitats.

BOTANICAL TOURS
Tours with nature guides/biologists show plants in their natural habitats and highlight their biological diversity.

FUNGI TOURS
Tours with mycologists showing the diversity and species of fungi.

MAMMALS WATCHING
Specialized and prepared for observing animals in their natural habitats, based on knowledge about the life and habits of wild animals.
